

Medac

BRC Management System
(Global Standard for Packaging Materials)

BRC Management System

The BRC System is regulated by the voluntary international standard BRC Global Standard for Packaging Materials, applicable to all Food Packaging Manufacturers.

By implementing the BRC standard, Medac guarantees the hygienic-sanitary safety of its productions intended to come into contact with food and fully meets legal obligations by protecting the consumer, ensuring that the finished product meets basic food safety requirements and well-defined quality standards

Medac has obtained the BRC packaging certification from SGS, an independent international certification body and guarantees the persuing of the described requirements.
