FSC[®] Standard for Chain of Custody Certification
FSC[®]-STD-40-004 V 3.0 – April 2017

The Management System for the traceability of FSC[®] forest products

The FSC[®] (**Forest Stewardship Council[®]**) is a nonprofit, independent organization promoting the responsible and viable management of forests, supportive of social, economic and eco-friendly principles, aiming at the preservation for future generations.

Paper carrying an FSC[®] certification comes from well and responsible managed forests, according to strict environmental, social and economic standards.

Medac has received an FSC[®] certification (license code FSC-C016153) from SGS certification body, an independent international organization according to the norm “FSC–STS–40–004 V 3.0 April 2017”, Standard for Chain of Custody Certification.

The system guarantees that all the FSC[®] certified paper comes from forests, which are sustainably managed according to strict standards.

Medac's products carrying the FSC[®] chain of custody logo, after the SGS authorization, are certified.
