

**Legality Rating Policy
(AGCM resolution of 12 November 2012 -
Implementing regulation on legality rating)**

The legality rating is a legislative tool aimed at promoting the application of ethical principles in the business environment; therefore, its achievement demonstrates compliance with high standards of legality in all accounting and administrative procedures.

The Market Authority certifies, through the attribution of a rating expressed in "stars", the level reached by a company in compliance with legality.

Medac adopts and encourages principles of transparency on social and ethical issues in accordance with the AGCM Resolution of 12 November 2012 - Implementing regulation on legality ratings.

Medac's commitment is therefore aimed:

- to maintain compliance with the requirements listed in the above mentioned Resolution;
- to pursue an improvement in the evaluation of ethical and social responsibility.
